

## 5 Reasons Better Hearing Is Better Aging

Hearing benefits more than just your communication. It can play a big role in healthy aging.

### Did you know? Better hearing:

1. Curbs the risk of falls, a major source of injury and death among those 65 and older
2. Goes hand in hand with social engagement, an important part of staying connected
3. Enhances the sense of sight, which works with hearing to help you perceive the world
4. May support household income, which research shows may take a hit with hearing loss
5. Might reduce dementia, which can significantly diminish quality of life

Hearing loss is more common among older adults, but it doesn't have to be inevitable. Help take care of the future you TODAY by scheduling regular hearing checks with our team. We're here to help!

## Visit Our *New Office!*

It has been a rollercoaster for everyone since March of 2020. We had to close our offices for several months, then we opened with restrictions and changed our procedures. We also found a new location, designed a whole new office space, and then moved in to our beautiful new office.

Have you stopped by to see us recently? If not, you need to come over and see our wonderful new place at 106 Frances Lane, Suite F, across from the Walmart in town. We are loving it!

## OUR MISSION STATEMENT

Our patient-centered approach allows us to focus on satisfying your hearing care needs. Our practice will work with you to diagnose and find solutions for your hearing needs using state-of-the-art equipment and the most advanced technology.

Because our focus is entirely on your unique needs, coming to Beaver Dam Hearing Care means you'll experience patient care specific to you, with exceptional follow-up care that ensures your hearing needs are being met.

We can guarantee there is no other hearing care provider who offers the amount of time we invest in you, or the level of expertise and care we offer.

# Hearing Care

*Is Self-Care – How We Can Help*

We hope 2021 has been a year of triumph, renewal, and reflection. As we continue to return to our pre-pandemic activities, your physical and emotional well-being are our top priority. We're excited to help you get back into the swing of things and regain momentum as you prepare to take on 2022!

Let's celebrate this year's wins and practice the self-care we all put on hold during these unprecedented times.

### Healthful Habits

From resting and recharging to making positive lifestyle changes, you can take action to feel restored and ready to face what lies ahead. Better hearing means better health!

### Reconnecting

We are still providing curbside pickup, remote care, and other flexibilities to prepare you for social reconnection and the return of in-person visits.

### Hearing Care

Whether you're looking for an evaluation of your hearing or your current devices, we have treatment options tailored to your needs. Sharing the latest research and hearing solutions with you is our passion!

### Community

Experience the dedicated care and service of a local audiology practice whose providers are part of your community and understand your unique needs.

As we return to the activities we paused last year, building connections and looking after ourselves may be overdue. Our providers are ready to get you back on track, so call us today to schedule your appointment! 920.887.0509

Sincerely,

Your Caring Team at Beaver Dam Hearing Care

## 30+ YEARS OF SERVICE

Beaver Dam Hearing Care has been the premiere hearing care provider for our area for over 30 years! We are your local small business, supporting and employing people in our community. Physicians know and trust us, and our largest referral source is our patients, their family, and caregivers. We strive to do what is best for each of our patients, and we treat them like family.

Our small business makes every effort to support our community in many ways. We use local companies for as many products and services as possible. We support our Beaver Dam Community Hospital, the Community Theatre, the Scholarship Foundation, Boy Scouts, Girl Scouts, and the Lion's Club, just to name a few. We also donate a percentage of profits to cancer research every year, because, just like you, we have had someone close to us affected by this disease.

## BENEFITS of Having a Local Hearing Health Provider

Hearing helps you stay connected to your world. It's also a window into your health. That's why it's a clear choice for your hearing health — our locally owned practice provides before, during, and after treatment.

### ※ Personalized Care

At our locally owned practice, you can take your time. You can discuss how your hearing affects the important things in your life. You also get to share what you hope better hearing does for your life. The more you share, the more personalized your treatment plan is.

### ※ Comprehensive Service

At our practice, your evaluation includes what your provider knows to be best practices. Every step is critical to the process, from the hearing exam to the test of how well your eardrum functions. No one at a "home office" decides your needs.

### ※ Educated Decisions

At our clinic, you're educated about the process beforehand, so you're prepared and at ease throughout. You also learn about your unique hearing loss and why hearing aids would be beneficial. Your decision ends up being the best kind — an informed one.

### ※ Technology Selection

With hometown hearing care, you get technology recommendations that meet your unique needs. Your provider has access to the choices they truly believe to be the best, no matter the brand.

### ※ Dedication to Your Success

Our practice recognizes that adjusting to hearing aids takes time. At your complimentary follow-ups, you get to provide feedback on your experience. Your hearing aid programming is adjusted, and you get tips and encouragement.

### ※ A Relationship, Not a Transaction

You build a relationship with the team at our local hearing practice. A newborn, a new job, or a new hobby could change your listening lifestyle. Your hearing team is in a unique position to understand your new situation. At your next visit, you can share with us the exciting details and get your hearing aid programming adjusted.

*Has it been a while since we last saw you? Come on in! We'll chat, clean your devices, and check how well you're hearing. Call today to schedule your appointment.*
